RE: Mascalls Academy virtual open event launch

Dear parent/carer,

I hope this letter finds you and your families well. I am so sorry that we are unable to welcome you to Mascalls Academy physically in the way that we have done in previous years through our open events.

We are incredibly proud of the way our students have shown an adaptability and resilience throughout this once in a generation global crisis. Our parents too have been incredibly supportive resulting in a community that ensures that our students are safe, that they are happy and that they continue to make excellent progress.

We have put together a virtual open event which can be found by [clicking here](#). We hope to show you a little of what makes the Mascalls community so incredibly special and what makes us consistently one of the highest performing non-selective academies in the county every year.

From academic excellence to the students who compete and represent in creative arts, sport and music locally, nationally and internationally we recognise that success is achieved in many ways. Through our extensive curriculum offering twenty-nine subjects at GCSE and A level the many pathways to success are well designed and supported through high quality teaching and outstanding pastoral care. We have incredibly high expectations of all our students and support them to develop their individual character in becoming the best they can possibly be and we would be delighted for your son/daughter to join them.

We are available when you need us for advice and guidance in the secondary school application process, please feel free to contact us – reception@mascallsacademy.org.uk.

Yours sincerely

Mr W Monk
Principal
